# Promotional parasols

Promotional parasols are both shade providers and advertising media at the same time. They are an effective eye-catching means at the PoS and serve as a design and decoration element at events as well as ensure always optimal shading. Promotional parasols are digitally printed with custom design starting from just one piece. The print is characterized by bright colours with very good lightfastness. The promotional parasols with a crank are also available in a waterproof version with our Variotex® Z SE material. An extra protective lamination allows you to achieve highest scratch resistance of the print.

	Ø 210	Ø 250	Ø 270	Ø 300		250 x 250 cm	300 x 300 cm	250 x 180 cm	300 x 200 cm

## Printing part

### Standard model

- knitted polyester Multisol® L SE (approx. 115 g/m<sup>2</sup>), for medium- and long-term use
- excellent air permeability, fast-drying
- water-repellent (hydrophobic) finish available on request
- valance with edge binding (choice of 10 colours), gutter Durchdruck, good print through, graphics can also be seen from the underside

### Rainproof model

- woven polyester Variotex® Z SE (without lamination, approx. 200 g/m<sup>2</sup>), for medium- and long-term use
- UV-resistant, very good colour reproduction, very good lightfastness (6-7)
- waterproof up to 2000 mm water column, rainproof seams
- cleaning with a damp cloth possible
- valance with edging stripe (10 colours selectable), single-sided printing
- **Note:** Parasols without lamination need to be handled with care to avoid scratch marks.

#### Printing with lamination

- woven polyester, Variotex® Z SE (with lamination, approx. 220 g/m<sup>2</sup>), for longer-term use, frequent use at changing places
- additional shield by the use of special protection lamination after printing: highest scratch resistance, stain-resistant, longer durability

### Print

- on segments and /or valance
- available with solid colour or full colour design

## Rack

#### Ø 210/Ø 270:

- frame: white
- steel tube with white epoxy powder coating, 2-piece pole, stable struts made of steel flat hollow profiles, canopy tilt-able through easily functioning pivot joint in made of metal, including crank handle

#### Ø 250/Ø 300 | 250x250/300x300 | 250x180/300x200:

- frame: white or anthracite
- pole made of steel with epoxy powder coating, sturdy ribs made of flat hollow profiles steel, 2-part pole with screw thread
- canopy tiltable via pivoted joint (easy to handle), made of steel incl. crank handle
