Table Top Display

Small, versatile and effective in advertising!

The popular small-format advertising options can be found almost everywhere. They can be placed anywhere where short information should be spread or where discounts, seasonal offers or news are to announce.

The soup of the day in a restaurant, a new ice-cream speciality in an italian restaurant, a special campaign in a jeans store or even contact information from a hotel - in many places you need some advertising space to give short information and inform visitors or customers.

Table advertising materials are available in many different shapes, sizes and variants from us: you decide whether the printed part should be printed on one or both sides, how quickly the printed part can be changed, which material you want to print or in which form the advertising should be placed on the table.

from small to large!

Mini Window Banner

The modern and at the same time traditional advertising media provide in different forms and sizes a lot of possibilities for an individual design with logos, slogans or pictures. Mini Window Banner and Pennants are versatile and can be used in club rooms as well as in cars, restaurants or at trade fairs.

Table Flags

The classic one, what went never out of fashion. Table Flags are a popular table advertising medium for associations, companies or leisure clubs. They can be printed in your individual design and can therefore be used in many ways. Placed on tables, counters, at trade fairs and congresses, they serve as a decoration element and advertising media in one. In the standard size of 25 x 15 cm the flags can be attached quickly and easily on hardware, you can choose out of many table flag stands.

Table Pennant, Table Banner

Today's club needs cannot be imagined without Table Banners and Pennants, but they are also used more often on reception counters, in consultation rooms or in the gastronomy. The advantage is obvious: they provide a lot of advertising space, trendy shapes and eye-catching finishes with cord, cut or loop fringes.

Shaped Table Banner

Table Banners are modern and flexible presentation aids used at conferences, at the PoS or counselling places. Because of the individual form of the lower edge – concave, convex, straight, angular or drop shape – Table Banners produce visual highlights. Finished double-sided printing on both sides with the same or different design and individual motifs are possible. The softly shining material creates a noble appearance and completes your advertising presence. Choose the proper model for your design – all available in three different sizes (L, M or S).

Mounting the print

Q-Frame® T

The practical and sturdy aluminium frame with a frame depth of 15 mm offers a lot of space for advertising, because the frame is practically invisible. Almost the entire space can be individually printed with advertising images, slogans or logos. The print is fixed with the help of a keder groove system what ensures a very tight and wrinkle-free fit. The feet are made of acrylic and support the high-quality character of this table advertising medium.

Self-clamping Table Displays

With their compact design Self-clamping Table Displays provide a functional possibility to place smaller panels or signs as advertising media or decoration on tables and counters for a short- or long-term usage. The printed panels of the table display have either an all-around cut or an all-around cut with rounded corners. Self-clamping Table Displays convince especially with their fast, tool-free installation – clamp the panel, set up, done! Because the printed panel can easily substitute, they are perfectly located at receptions or waiting areas, at the PoS or everywhere in hotels or restaurants.

Bowflag® T

Bowflag® T is a table sail in a stylish drop shape. These small size advertising sails, placed on tables or counters, enjoy an increasing popularity. Applied in bars, restaurants, meeting rooms or in retail, they do point out special sale offers and promotional campaigns perfectly.

The finishing requires no unicolour sleeve. With a height of 55 cm, Bowflag® T is one of the big ones among the small format advertising tools. Single sided or double sided finishing are available. A double sided finish makes a presentation of the same or different designs on the front and reverse side possible. In any case, our advertising message makes an impression from both sides.
