Budget Flagpole

The budget-friendly flagpole, great for any occasion!

Our Budget Flagpole is a simple yet versatile indoor and outdoor flag display solution. It features a rope and pulley system similar to traditional flagpoles.

However, unlike traditional flagpoles, this light-weight aluminium flagpole is portable! The Budget Flagpole stands at a max. height of 6.2 m, but pole segments can be removed if a shorter height is desired. Choose from many indoor and outdoor base options to complete the flagpole.

Advantages

- excellent price/performance ratio
- consisting of 5 pole segments (1.35 m each)
- flagpole height can be reduced using less pole segments
- quick and easy set up
- light-weight, stable and weather-proof
- Outdoor use depends on the ground fitting chosen
- suitable for long-term and portable use
- flagpole can be removed from the ground sleeve at any time

Recommendation

The total height of the flagpole can be reduced using less than 5 pole segments!

Budget Flagpole

Characteristics	Scope of delivery	Flags			
<ul style="list-style-type: none"> • 5-part • Material: Aluminium, silver-coloured anodised • Pole Ø 50 mm • Total height above ground 6.20 m • Weight 4.0 kg • several ground fittings available • can be used up to wind force 5 (max. 38 km/h; 23 mph) 	<ul style="list-style-type: none"> • 5 pole sections made of aluminium, Ø 50 mm • Flagpole top with halyard • Finial Ø 75 mm • Ground sleeve, Length: 35 cm, Ø 55 mm • Cleat • Hoisting rope, Length 11 m, Ø 4 mm • Screw set, 2 plastic snap hooks • Assembly instructions 	Style	Portrait	Landscape
