# FACE MASK

**vispronet**

- Available in different finishes, made in Germany
- Double layer made of 100% skin-friendly cotton (certified according to OEKO-TEX® Standard 100) or double-layer made of 100% cotton on the inside, on the outside (printed side) made of polyester fabric
- Covering mouth and nose only, for everyday use
- Certification unavailable - not a medical device and or personal protection equipment

## Advantages in comparison to other commercially available face masks

- Reusable face mask, washable
- Made from 100% skin-friendly cotton
- Without synthetic component: mask does not stick to face even with prolonged wear
- Mouth distance: comfortable breathing space

## White, black and also available with individual print

### Face mask with head straps

- Fastening with ties (strap length approx. 40 cm each)
- Individually printable with custom logos

### Face mask with ear loops

- With ear loops made of elastic band and flexible nose piece for an optimal mask fit
- Individually printable with custom logos or full print

### Face mask with head loops

- With head loops made of elastic band and flexible nose clip for optimal mask fit
- Individually printable with custom logos or full print

## Available with standard motifs

### Face mask with ear loops for adults

- With ear loops made of elastic band and flexible nose piece for an optimal mask fit
- Ready designs to choose from (see motif selection)

All sizes are approximate. As we are constantly developing our products we reserve the right of changing technical issues and dimensional deviations.

# FACE MASK WITH FILTER

**vispronet**

- Intended for single use
- Recommended usage time: 4 hours
- Storage in a clean and dry environment at -5 ° C to + 50 ° C
- Direct sunlight exposure should be avoided
- Proper disposal in normal household waste

## Reusable face mask for filters with ear loops

### Face mask with ear loops, for filters

- With bag for various filter elements
- Ear loops made of elastic band and flexible nose piece for optimal mask fit

**Note:** despite utilized filter elements, the masks are not intended for medical use.

### Optional Vispronet® fleece filter insert FFP1 for face mask

- Water-repellent melt-blown non-woven fabric
- Electrostatically charged to retain viruses and others micro particles

**Note:** despite utilized filter elements, the masks are not intended for medical use

## Filter efficiency comparison

Filter typ	Filter efficiency
Mask without filter	ca. 9%
Mask with 1 layer of tissue	ca. 46%
Vispronet® maske with Vispronet® fleece filter FFP1	> 81%
Mask with filter inserts for medical applications (FFP2, FFP3)	> 95%

Alle Maße sind Circa-Angaben. Da wir ständig an der Weiterentwicklung unserer Produkte arbeiten, müssen wir uns technische Änderungen sowie Toleranzen vorbehalten.
