Grip Clips

simple,
versatile,
reusable

Grip Clip Mini and
bungee tie with
hook

Grip Clip Midi and
bungee tie with
T-bar

Vinyl, fabrics, display films and paper can be fixed with a flick of the wrist using Grip Clips.

Mounting the eyelets is easy: Place the banner material between the upper and lower part of the eyelet and lock the clip.

Two different models are available:

Grip Clip Mini with a loading capacity of up to 45kg

Grip Clip Midi: with a loading capacity of up to 100kg.

Perforating the banner material to install the clips is not necessary.

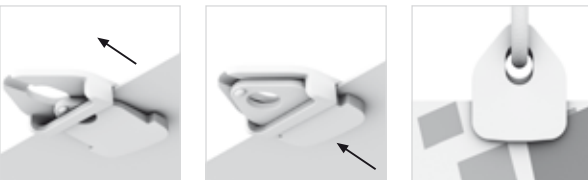

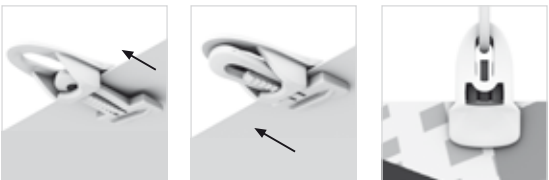

After utilisation, the clips can be removed without causing damage to the material and used again. Instead of pulling off when the load increases, they actually grip harder – the heavier the load, the tighter they grip.

Advantages

- Numerous capabilities
- Can be removed without residues, relocatable and reusable
- Withstands even high tensile strengths
- Fast mounting without tools
- Applicable to various materials (PVC, fabric, paper, display film...)
- 2 types available, offered in a wide range of colours:

Grip Clip Mini: Load capacity up to 45kg

Grip Clip Midi: Load capacity up to 100kg
