Beanbags

Do you feel tired?

Beanbags invite the people to stay. They are comfortable to rest on, to recreate and to relax. It is up to you if you would like to use the beanbag to sit on with a backrest or to lie on like on a comfortable couch. Due to the always changing positions while sitting, different muscle groups will be stressed and relieved all the time. Among experts, this dynamic sitting is considered to be very healthy.

Our beanbags are combining a comfortable resting place with customised design. And because of their dimensions they provide a lot of space for your message. Beanbags offer a wide range of applications in bars, restaurants or at events.
