# Beanbags

Beanbags invite to lie down, sit comfortably or just to feel good and relax. They are ideally suitable for the use in the hotel industry and gastronomy, at fairs and events or in the private sector. All beanbags are equipped with a separate inlet. The filling made of lightweight, high-quality EPS-beads (Styrofoam beads) produced in Germany is absolutely sanitary safe and enables a perfect modification, support and relief of the beanbag to the body. In addition the filling has an insulating and warming effect to the ground. The high-quality EPS-beads prevent a collapse and clumping of the filling. Furthermore the filling-material is breathable and ensures a fast air exchange and long-term volume stability as well as a long durability with high seating comfort.

If you are looking for a type, that is very resistant to staining, order cheap beanbags with black bottom. Either with the same or different motifs double-sided beanbags provide much place for logos, slogans or pictures. If necessary the robust outer cover can be changed or washed. Therewith the modification of the designs to changed demands is always possible.

	Beanbag Square		Beanbag Round		Beanbag Drop	
Size*	100 x 130 cm (junior)	140 x 180 cm	Ø 120 cm	Ø 140 cm	60 x 60 x 60 cm (L x W x H) (junior)	85 x 85 x 85 cm (L x W x H)
