# Tube Display

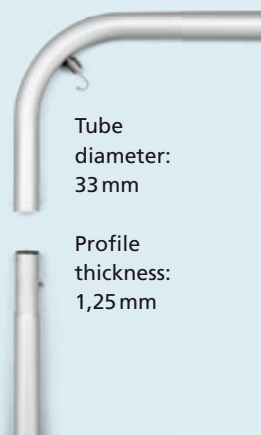

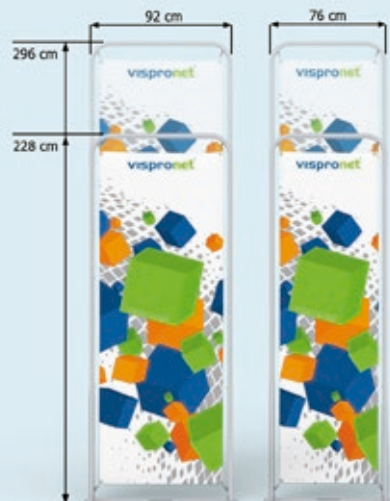

The Tube Display is an excellent way to present a large scale of commercial message within a small area, e.g. on trade fairs or sales events. On request you can equip your Tube Display with a banner or a cover; both printing components are in a few seconds and easily mounted. Because of the two printing components and different sizes you can choose of, the Tube Display is very flexible in the usability. The mounting of the system and the images is very easy and does not need any other tools. With the Tube Display your target group is not able to ignore your advertising.

## All advantages at a glance:

- Quick mounting – and dismantling due to an easy plug system
- 2 possibilities for usage: Image as a cover or a banner
- Made for indoors, with an additional weight also for outdoor use
- Different sizes available

System Size	76 cm wide		92 cm wide	
	76 x 228 cm	76 x 296 cm	92 x 228 cm	92 x 296 cm
<b>Base plate</b>	80 x 25 cm	80 x 25 cm	96 x 25 cm	96 x 25 cm
