# Mobile Windbreaks

The mobile windbreaks are an attractive variant to protect oneself against wind, sun and curious looks on the beach, at the campsite or in the garden.

Printed with individual motifs it is going to be a very special eye-catcher in every surrounding. It does not matter if used in a line, in shape of a L or a U—the portable wind and privacy screens adapt to your demands and the local conditions in a flexible way. The wooden sticks, sharpened on one side, are kept through the hemstitches and give the functional system an ideal stability. Nothing stands in your way for making a foray to the local swimming pool or lake.

Especially for hotels near or with access to the beach the portable windbreaks provide an exceptional advertising space for your logo or company name—by the way your guests will be happy to have a calm, protected oasis by the sea.

## All advantages at a glance:

- ✓ individual printable
- ✓ attractive wind, privacy and sun protection
- ✓ mobile, flexible use
- ✓ easy handling
- ✓ great stability due to wooden sticks

**Tip** – Therewith you are in the right position—combine your wind and privacy screen with deck chairs in the same design. Relax in a deck, director's or beach chair, protected against wind and curious views.

# Balkony Screen

The balcony windbreaks are the optimal solution to create a decorative setting for cosy hours on the balcony. The attractive textile balcony covering is printed with individual motifs and screen your favorite place. Therewith an elegant and pleasant atmosphere with personal touch could be created on every balcony.

In the hotel industry or food service the balcony screen provides individual advertisement areas for your message and words of welcome. As a retailer share information about special sales promotion, as an exhibitioner announce new opening dates and gain new customers and prospects. They can be fixed quick and easy on balcony rails or banisters using cable ties.

# Side Awning

## All advantages at a glance:

- ✓ individual printable
- ✓ optimal wind and sun protection
- ✓ easy usage and handling
- ✓ high tear resistance
- ✓ space-saving stowable

Side awnings are the high-quality option for individual wind and privacy screen for terraces, balconies, gardens as well as restaurants and cafés. The 180 cm high system is available in silver-grey and white. The stable, weatherproof and powder-coated system made of aluminum is discreetly fixed on the wall and the freely positionable stand with handle. If there is no wall existing or drilling is not possible use the post for free mounting of the side awning. Additional floor brackets for the stand are optionally available.

The huge one-sided printing part can be designed with photos, logos or messages. With the handle the side roller blind can be extended up to 300 cm. The handle can be fixed easy at the stand. With the rewind mechanism the printing part could be rolled up in the cassette within seconds. Therewith it is protected against pollution and damages up to the next usage.
