

Vispronet® wants to ensure that your graphic will turn out the way you designed it. That's why we conduct an automated graphic check on all artwork submitted. This automated graphic check is free of charge and only checks certain criteria listed below. If your graphic meets these criteria it will immediately release for production.

In case your graphic does not meet the checking criteria, Vispronet® will inform you per e-mail. You will then have the option to make changes to your graphic and resubmit it to us. Please consider this for the timeline of your project.

As an alternative and for peace of mind we offer a professional graphic check which includes additional checking criteria and 15 minutes of design time by one of our experienced prepress designers. The additional cost is 29.75 € incl. VAT. / 25.00 € net per graphic. If further design work is needed additional studio cost (15 min = 20.83 € incl. VAT / 17.50 € net) will be charged.

We accept the following file types: PDF, JPG, TIFF, AI, INDD, BMP, CDR, FH/FH10/FH11, QXD, PSD, EPS

For your information: Archives like ZIP or RAR are possible.

Other file formats such as PS, GIF, PNG, Microsoft Word are not accepted.

## Comparison between free automated graphic checking and professional graphic checking

Graphic Checking Criteria		Automated Graphic Check PDF, JPG, TIFF	Professional Graphic Check* AI, INDD, BMP, CDR, QXD, FH/FH10/FH11, PSD, EPS
Ratio	Was the graphic file submitted at a scale of 1:10?	✓	✓
Resolution	Flags / Banner, Bowflag®, Parasols, Street Banner (textile), Table cloth / Seating: 600 - 1.400 dpi Display Systems, Exhibition kits, Desktop displays: 900 - 1.400 dpi PVC banner, Street Banner (PVC): 800 - 1.400 dpi Boards, Poster: 1000 - 1.400 dpi	✓	✓
